**PCN Number:** 03/2024

**Title:** Conversion of ordering process for CXP-12 impulse FG (PM)

**Product Family:** Programmable Frame Grabbers.

**Release date:** March 21st, 2024 (PM)

**Contact:** Basler GtM & Basler Central/Regional Support

**Type of Change:**

Miscellaneous    Firmware    PC Software

Product design    Process

## Reason for Change

The programmable impulse frame grabbers were offered as a customized extension of the CXP-12 product series. The conversion of the impulse frame grabbers to standard products and their integration into the frame grabber portfolio required technical adjustments to the runtime environment and VisualApplets, as well as changes to ordering process by a new product name.

Hereby impulse frame grabbers will be discontinued with immediate effect are replaced by imaFlex CXP-12 Quad.

Even though backward compatibility between impulse and imaFlex CXP-12 Quad is guaranteed, only imaFlex products and updated operating environments will be delivered with immediate effect.

The PCN describes the change in the product range and ordering process.

## Change Description

impulse frame grabber products are discontinued, won't be offered anymore and can be substituted by ordering the new but identical in construction imaFlex CXP-12 Quad.

**Important:** Hardware and accessories used at impulse are compatible to and can be used at imaFlex CXP-12 Quad as well. Software (runtime version and VisualApplets) shall be updated to a current version.
